

DOG / PUPPY ADOPTION APPLICATION

Adoption Application
Find Your New Love!

You are now just one step away from increasing the joy and love in your life by adopting one of our wonderful pets! But before you fill out our application form, please consider the following -

How Long Is a Lifetime?
Are You Really Willing to Commit?

Most dogs and cats, with good care, can live to be 10 to 15 years old or older. Before you adopt a dog/puppy or cat/kitten, please ask yourself these questions:

- * To get an idea how long a pet's lifetime may be, please consider - how old will you be 15 years from now?
- * How many times do you think you might move in the next 15 years?
- * Are you willing to move the pet too, and restrict your choice of housing to places where pets are allowed?
- * What major changes might happen in your life in the next 15 years? Marriage? Children? Are you willing to continue spending time, energy and money to care for your pet when taking on new responsibilities like these?
- * What will you do if your spouse or children can't get along with the pet?
- * If you are getting a pet for your children, how old will they be in 15 years? Will you still want this pet after the kids have grown up and moved out?
- * Have you previously owned a pet that didn't live with you for 10 years or more? If so, what happened to it? What will you do differently with this pet to prevent it from going the way your previous pet did?

These questions are presented not to discourage you but to give you a few things to consider. Although we will ALWAYS take back our animals due to ANY reason they don't work out after adoption - and unforeseen events can occur - our goals are lifetime and we do our very best to ensure that.
